

wait (e.g. 24 h or 1 week)
while new data piles up

Old data + new data

Retrain
on all of it, from scratch

Test

Deploy
replace the old model

```
graph TD; A[Old data + new data] --> B[Retrain<br/>on all of it, from scratch]; B --> C[Test]; C --> D[Deploy<br/>replace the old model]; D --> A;
```
