Random variables and distributions

Note 240

Bernoulli and binomial

Note 270

Probability mass function (PMF)

Note 241

Probability density function (PDF)

Note 242

Poisson distribution

Note 560

Cumulative distribution (CDF)

Note 241–242

Normal distribution

Note 250

Density estimation (KDE)

Note 243

Standard normal and z-table

Note 251

Kurtosis and Q-Q plots

Note 260

Gaussian Naive Bayes

Note 90

Function and power transforms

Note 30–31

Descriptive statistics

Note 210

Skewness

Note 252

Mean, median and mode

Note 221

Variance and standard deviation

Note 222

Percentiles and box plots

Note 230

Covariance and correlation

Note 231

PCA

Note 47–48

→ is needed for → has the kind → is used in → fixes

ML Note (another map)
