

1. sense

cameras
front, back, left, right

LiDAR on the roof
distance to nearby objects

GPS
where the car is

2. decide

on-board computer
runs deep
learning models

3. act

controls
steering, brake,
accelerator

```
graph LR; subgraph "1. sense"; C1[cameras<br/>front, back, left, right]; C2[LiDAR on the roof<br/>distance to nearby objects]; C3[GPS<br/>where the car is]; end; subgraph "2. decide"; C4[on-board computer<br/>runs deep learning models]; end; subgraph "3. act"; C5[controls<br/>steering, brake, accelerator]; end; C1 --> C4; C2 --> C4; C3 --> C4; C4 --> C5;
```
