Estimate

Kinds of test

Choose and use

Normal and
standard normal
Note MA-024–025

Central limit theorem
Note MA-033–034

Confidence intervals
Note MA-035–036

Student's
t-distribution
Note MA-037

**Sampling
distribution
and standard error**
Note MA-033

Type I and II errors,
power and tails
Note MA-040

P-values
Note MA-041

**Hypothesis testing:
null and alternative**
Note MA-038

T-tests: one-sample,
two-sample, paired
Note MA-042–043

Z-test and
rejection region
Note MA-039

Chi-square tests
Note MA-045

One-way ANOVA
Note MA-046

Choosing a
hypothesis test
Note MA-044

Feature selection
Note ML-022, ML-045

A/B testing a
deployed model
Note ML-009
