

Line numbers count every line of the file

line the file test.csv

```
0      ,,,,,,,,,,
1      0,enrollee_id,city,...
2      1,29725,city_40,...
3      2,11561,city_21,...
4      3,33241,city_115,...
```

line 0 holds no names

header=1: line 1 holds the column names

skiprows=[2, 3] would drop
lines 2 and 3 (two data rows)
