

1

```
RandomForestClassifier(  
    n_estimators=50,  
    warm_start=True)  
    .fit(X_train, y_train)
```

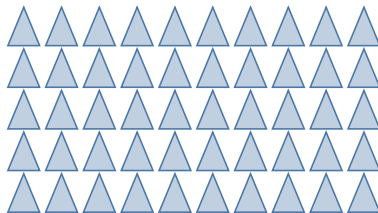

2

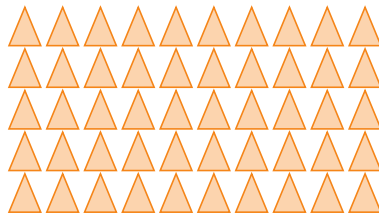

```
.set_params(n_estimators=100)  
.fit(X_train, y_train)
```

50 trees trained

the same 50 trees, kept

only 50 new trees trained
