every fact, after the action

pick-up table, done in the state S1

robot-at start	stays false
robot-at table	stays true
robot-at door	stays false
cup-at start	stays false
cup-at table	becomes false
cup-at door	stays false
holding-cup	becomes true
hand-empty	becomes false

5 of the 8 lines say “stays the same”

STRIPS: only the changes

pick-up table

precondition: robot-at table,
cup-at table, hand-empty

add: holding-cup

delete: cup-at table, hand-empty

every other fact keeps its value

all 12 actions: $12 \times 8 = 96$ lines on the left, 66 of them “stays the same”;
STRIPS writes 30 list entries and leaves the 66 out
