
route
lanes on the map, made when the goal is given
behaviour path
300 m along lane centres, points 2 m apart, 10 Hz
elastic band
100 points 1 m apart, sideways ±0.1 m; QP (OSQP)
MPT
bicycle model, car as 3 circles inside the road; QP (OSQP)
velocity smoother
speed over 200 m, acceleration and jerk limits; QP (OSQP)
path first
then speed
