

Hubel and Wiesel:
orientation-selective
simple and complex
cells in the cat's V1

1959–62

LeCun: convolutional
network trained with
backpropagation
(zip codes)

1980

1989

Krizhevsky et al.:
AlexNet wins the
ImageNet challenge

1998

2012

Fukushima:
Neocognitron,
S-cells and C-cells,
no backpropagation

LeCun et al.:
LeNet-5; check reading
deployed commercially
